Impressed with this bull's heifers. They have color, tall, big thick bodied, twisty horn and good direction to the horn and heavy boned heifers. They are not early maturing on horn. They start coming on at 7-8 months but really mature at 4-5 yrs. Great mothers. Great milkers. We have semen for sale \$100.00 a straw. His heifers make the best moms / and best cows we have had since Tari Graves genetics.
